The intent of the Quileute Higher Education Scholarship Program is to assist with the costs associated with higher education and to encourage enrolled Quileutes to complete a degree or certificate program. The expenses included in the cost of attendance for fulltime students are in-state tuition/fees, books/supplies, room/board, transportation, personal, and other. It is not guaranteed that all expenses associated with the cost of attendance will be funded. New and continuing awards are based on a limited availability of funds. The student will be required to repay the value of any benefit received in accordance with the Quileute Administrative Offset Ordinance. After repayment is completed, the student can become eligible for scholarship assistance in the future. - All students, even students currently receiving scholarship assistance, are required to reapply for the Quileute Higher Education Scholarship for each academic school year during the application period (January 2<sup>nd</sup> through March 31<sup>st</sup>).

If a student changes institutions, their scholarship assistance will be adjusted based off their new need as determined by FAFSA and the Student Needs Assessment Form. However, due to funding availability they will not be eligible to receive more scholarship assistance than the amount previously awarded for the academic school year.

### **Exceptional Circumstances**

Exceptional circumstances are cases that typically would make a student ineligible to receive scholarship assistance, but if the circumstance meets the criteria below then a student may be able to gain eligibility.

#### **1. Request for scholarship assistance not dictated by a FAFSA funded program.**

Some higher education institutions are not FAFSA funded, and in some cases students may not be offered FAFSA assistance. In these instances, students will complete the same process to receive scholarship assistance. Scholarship assistance will still be determined by the Student Needs Assessment Form. However, only the cost of attendance section is required to be completed by the student's institution.

#### **2. Request for scholarship assistance for part-time or nontraditional courses/programs (such as online, independent, and enrichment courses/programs).**

If a student wishes to attain eligibility for scholarship assistance during part-time enrollment, they must submit a letter to the Quileute Scholarship Coordinators explaining their exceptional circumstance. Examples of why Part-time enrollment might be funded include, but are not limited to:

- Full-time work load interferes with a student's ability to maintain full-time status
- Family obligations that interfere with a student's ability to maintain full-time status

If a student is determined to be eligible to receive scholarship assistance for part-time status, the only cost of attendance items that will be funded are in-state tuition, fees, and books.

If a student wishes to attain eligibility for scholarship assistance during enrollment in nontraditional courses/program (such as online, independent study, and enrichment

courses/programs) they must submit a letter to the Quileute Scholarship Coordinators explaining their exceptional circumstance. Examples of why nontraditional courses might be funded include, but are not limited to:

- Full-time work load interferes with a student's ability to take traditional courses/program
- Family obligations that interfere with a student's ability to take traditional courses/program
- Distance to institution interferes with a student's ability to take traditional courses/programs

If a student is determined to be eligible to receive scholarship assistance for nontraditional courses/program, the only cost of attendance items that will be funded are in-state tuition costs, fees, and books.

### **3. Request for scholarship assistance for out-of-state tuition and fees**

Students who attend an out-of-state institution are not eligible to receive scholarship assistance for the full cost of out-of-state tuition. Instead, students are eligible for scholarship assistance in the amount equivalent to in-state tuition costs as determined by the Out-of-State Student Needs Assessment Form completed by the student's institution's Financial Aid Department.

### **4. Financial assistance with GED testing, placement testing, college entrance testing, and career related programs and testing.**

Assistance is available for these types of testing through the Quileute Higher Education Scholarship Program. Each test will be funded one time per year per individual. For GED Testing all five required tests (language arts writing, language arts reading, social studies, science, and math) can be funded one time per year per individual. In addition, GED testing must be offered through a nationally accredited institution.

There is a processing time of up to 10 business days for all requests for scholarship assistance for testing and career related programs. If necessary, there is an additional processing time of 10 business days for payment.
